UNIVERSITY COLLEGE, LONDON.

PROCEEDINGS

AT THE

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

WEDNESDAY, 25TH FEBRUARY, 1863.

REPORT OF COUNCIL AND FINANCIAL STATEMENTS.

LONDON:

PRINTED BY TAYLOR AND FRANCIS, RED LION COURT, FLEET STREET

1863.

OFFICERS OF THE COLLEGE.

President.—LORD BROUGHAM.
Vice-President.—LORD BELPER.
Treasurer.—GEORGE GROTE, Esq., D.C.L., F.R.S.

COUNCIL.

The President.	The Vice-President.	The Treasurer.
James Booth, Esq.	Frederick William Mackenzie, Esq., M.D.	
**Dr. Boott.	*Richard Martineau, Esq.	
The Hon. George Denman, Q.C., M.P.	Henry Matthews, Esq., LL.B.	
*Edward Enfield, Esq.	Henry Crabb Robinson, Esq.	
Thomas William Evans, Esq., M.P.	The Rt. Hon. Sir John Romilly, Master of the Rolls.	
*Robert Nicholas Fowler, Esq., M.A.	*Edward Romilly, Esq.	
William Fowler, Esq. LL.B.	The Rt. Hon. Sir Edward Ryan.	
*Thomas Field Gibson, Esq.	James Stansfeld, Esq., M.P.	
†Sir Francis H. Goldsmid, Bart., Q.C., M.P.	Alfred Wills, Esq., LL.B.	
Frederick D. Goldsmid, Esq.	Frederic John Wood, Esq., LL.D.	
Arthur Woodriff Jaffray, Esq.		

† *Ex-Officio, as President of the Senate, Member and Chairman of the Committee of Management.*
** *Chairman,* *Member, of the Committee of Management.*

AUDITORS.

David Mocatta, Esq.
Henry Browne, Esq.
George Valentine Yool, Esq.
John Hodgkin, Esq.

SENATE.

President.—SIR FRANCIS H. GOLDSMID, Bart., Q.C., M.P.
Vice-Presidents.—H. CRABB ROBINSON, ESQ.; RICHARD MARTINEAU, ESQ.

Faculty of Arts and Laws.

DEAN.—Thomas Hewitt Key, A.M., F.R.S., Professor of Comparative Grammar.
VICE-DEAN.—Augustus DeMorgan, Professor of Mathematics.

Syed Abdoollah	Hindustani.
Edward Spencer Beesly, A.M.	Ancient and Modern History.
Charles Cassal, LL.D.	French Language and Literature.
C. De Tivoli	Italian Language and Literature.
T. L. Donaldson, Ph.D., M.I.B.A.	Architecture.
Dádábhái Naoroji	Gujaráti.
Theodor Goldstücker, Ph.D.	Sanskrit.
Robert Edm. Grant, M.D., F.R.S.	Zoology.
Adolph Heimann, Ph.D.	German.
The Rev. J. Hoppus, Ph.D., F.R.S.	Philosophy of the Mind, and Logic.
Henry Malden, A.M.	Greek.
Rev. D. W. Marks	Hebrew.
David Masson, A.M.	English Language and Literature.
John Morris, F.G.S.	Geology and Mineralogy.
Francis W. Newman	Latin.
Daniel Oliver, F.L.S.	Botany.
William Pole, M.I.C.E., F.R.S.	Civil Engineering.
Richard Potter, A.M.	Natural Philosophy and Astronomy.
Charles Rieu, Ph.D.	Arabic and Persian.
John A. Russell, LL.B.	English Law.
Jos. Sharpe, LL.D.	Jurisprudence.
Wm. Sharpey, M.D., F.R.S.	Physiology.
Gannendr Mohun Tagore	Bengalli Language and Hindu Law.
Jacob Waley, A.M.	Political Economy.
Alex. W. Williamson, F.R.S.	Chemistry and Practical Chemistry.
Office vacant	Chinese.

Faculty of Medicine.

DEAN.—William Sharpey, M.D., F.R.S. Professor of Anatomy and Physiology.
VICE-DEAN.—John E. Erichsen, Esq. Surgery, and Clinical Surgery.

George Viner Ellis, Esq.	Anatomy.
Wilson Fox, M.D.	Pathological Anatomy.
Robert Edm. Grant, M.D., F.R.S.	Comparative Anatomy.
Charles John Hare, M.D.	Clinical Medicine.
George Harley, M.D.	Medical Jurisprudence.
Wm. Jenner, M.D.	Medicine and Clinical Medicine.
T. Wharton Jones, F.R.S.	Ophthalmic Medicine and Surgery.
Edward W. Murphy, M.D.	Obstetric Medicine.
Daniel Oliver, F.L.S.	Botany.
Richard Quain, F.R.S.	Special Professor of Clinical Surgery.
J. Russell Reynolds, M.D.	Special Professor of Clinical Medicine.
Sydney Ringer, M.B.	Professor of Materia Medica.
Alexander W. Williamson, F.R.S.	Chemistry and Practical Chemistry.

Junior School.

HEAD MASTER.—T. Hewitt Key, A.M.

Secretary to the Council.—CHARLES C. ATKINSON.

UNIVERSITY COLLEGE, LONDON.

ANNUAL GENERAL MEETING

OF

THE MEMBERS OF THE COLLEGE,

WEDNESDAY, FEBRUARY 25TH, 1863.

RICHARD MARTINEAU, ESQ.,

IN THE CHAIR.

The Chairman appointed JAMES YATES, Esq., and DAVID MOCATTA, Esq., Scrutineers, to ascertain and report the result of the Ballot.

The Requisition, and the following Lists, were read by the Secretary:—

1. OF OFFICES TO BE VACATED.

President, Vice-President, Treasurer, six Councillors, Auditor.

2. OF MEMBERS HOLDING THESE OFFICES.

President. LORD BROUGHAM.

Vice-President. LORD BELPER.

Treasurer. GEORGE GROTE, Esq.

Councillors.

WILLIAM LLOYD BIRKBECK, Esq.
JAMES BOOTH, Esq.
THE HON. MR. JUSTICE CROMPTON.
THE HON. RICHARD DENMAN.
THOMAS WILLIAM EVANS, Esq., M.P.
THE RIGHT HON. SIR EDWARD RYAN.

Auditor. HENRY W. BUSK, Esq.

3. MEMBERS PROPOSED. BY WHOM PROPOSED.

For President,

LORD BROUGHAM ..... THE COUNCIL.

For Vice-President,

LORD BELPER ..... THE COUNCIL.

For Treasurer,

GEORGE GROTE, Esq., D.C.L., F.R.S. ..... THE COUNCIL.

MEMBERS PROPOSED.	BY WHOM PROPOSED.
For Councillors,	
James Booth, Esq. (for re-election)	The Council.
The Hon. George Denman, Q.C., M.P.	The Council.
Thomas William Evans, Esq., M.P. (for re-election)	The Council.
Stephen Connel Freeman, Esq., F.C.P.	John Reynolds, Esq.
Henry Matthews, Esq., LL.B. Lond., Fellow of the College.	The Council.
The Rt. Hon. Sir Edward Ryan (for re-election)	The Council.
James Stansfeld, Esq., LL.B. Lond., M.P.	The Council.
For Auditor,	
John Hodgkin, Esq.	Henry W. Busk, Esq. The Council.

The Report of the Council was read by the Secretary.

The Statement of Receipt and Expenditure for the year 1861–1862, and other Financial Papers, were read.

Mr. Yates addressed the Meeting on the mode of teaching Latin, of which the Professorship would become vacant at the close of the current Session. He was requested by the Chairman to state his views in writing, in order that they might be considered by the Council.

On the motion of Henry Browne, Esq., seconded by John Reynolds, Esq.,

Resolved unanimously,—That the Report be received; that it be printed, and circulated among the Members of the College.

The Ballot proceeded during the reading of the Report.

The Return of the Scrutineers was presented to the Chairman, who declared the result of the ballot to be as follows:—

For President.....Lord Brougham.
For Vice-President .....Lord Belper.
For Treasurer.....George Grote, Esq., D.C.L., F.R.S.

For Councillors.

James Booth, Esq.
The Hon. George Denman, Q.C., M.P.
Thomas William Evans, Esq., M.P.
Henry Matthews, Esq., LL.B. Lond., Fellow of the College.
The Right Hon. Sir Edward Ryan.
James Stansfeld, Esq., LL.B. Lond. M.P.

For Auditor, John Hodgkin, Esq.

RICHARD MARTINEAU, *Chairman.*

On the motion of John Reynolds, Esq., seconded by Edward Enfield, Esq.;

Resolved unanimously,—That the thanks of the College be returned to Mr. Martineau for his kindness in presiding at this Meeting, and for his conduct in the Chair.

CHAS. C. ATKINSON, *Secretary.*

REPORT.

SESSION 1861-62.

STUDENTS.

The number of Pupils in the College during the Session 1861-62 was 802: viz. 439 Students, including 35 attending the Evening Classes of Latin, Greek, Mathematics, Natural Philosophy, Animal Physiology, Zoology, and Geology, and 363 Boys in the Junior School. The Students of the Faculty of Medicine were 189, of whom 57 were new Students: the Students of the Faculty of Arts and Laws were 250, including the 35 attending the Evening Classes; the new Students in the General Classes were 115. The Students of Analytical Chemistry in the Birkbeck Laboratory were 11. The highest number of boys in the Junior School in any one Term was 316. The receipt from Students and Pupils was £12,877 0*s.* 6*d.* The sum of £11,653 5*s.* 6*d.* was received for attendance on Classes and in the Junior School: viz, £3112 16*s.* for attendance on Medical Classes, £3179 9*s.* 6*d.* for attendance on the Classes of the Faculty of Arts and Laws, and £5361 on account of the Junior School. The receipt for attendance on Hospital Practice was £1223 15*s.* The share of Professors and Masters, exclusive of the annual augmentations to the Professors of Natural Philosophy, and Comparative Anatomy, and of the interest of the Patriot Fund paid to the Professors of the Evening Classes for Schoolmasters and Ushers, was £8991 16*s.* 7*d.* The College portion amounted to £2661 8*s.* 11*d.* The sum of £1223 15*s.*, received for Clinical Instruction at the Hospital, was paid to the Hospital Committee towards the support of the Charity.

The entries for the current Session up to this period are—Medical Students, 171, of whom 36 are new Students; new entries to the Hospital, 38; Students of the Faculty of Arts and Laws, 192 (of whom new Students, 98), making, together with 22 attending the Evening Classes of Latin, Greek, Mathematics, and Natural Philosophy, 214. The number of Boys in the Junior School this Term is 307. At the corresponding period of last year the number was 316.

COLLEGE PRIZES.

The two Andrews Scholarships of £85 each, of October 1862, were awarded—the Scholarship for proficiency in Classics to Mr. Augustus Samuel Wilkins, of Brixton; the Scholarship for proficiency in Mathematics and Natural Philosophy to Mr. George Campbell De Morgan, of London. The Examiners in Mathematics reported that Mr. Philip Magnus acquitted himself with honour at the Examination; that if there had not been a Candidate superior to himself, he would have been recommended for the Scholarship. The Council, having in hand a fund of lapsed Andrews Scholarships, awarded a Second or Extraordinary Scholarship of £60 to Mr. Magnus.

The Joseph Hume Scholarship in Political Economy, of £20 a year for three years, was obtained by Mr. Theodore Waterhouse, of Reading. The Examiners reported that Mr. Job Bradford and Mr. Oswald Hunter were equal, and showed sufficient absolute proficiency to have merited the Scholarship.

The Jews' Commemoration Scholarship of £15 a year, tenable for two years, was awarded to Mr. Numa E. Hartog, of London. Of the Students of the Faculty of Arts of not more than one year's standing in the College, Mr. Hartog was reported by the Faculty to be most distinguished for general proficiency and good conduct.

The Atkinson Morley Surgical Scholarship of £45 per annum, tenable for three years, was awarded to Mr. William John Smith, of Basingstoke.

The Longridge Prize of £40, of the Session 1862, for general proficiency in Medicine and Surgery, was awarded to Mr. William Henry Griffin, of Banbury.

The Filliter Exhibition in Pathological Anatomy, £30, was conferred on Mr. Thomas Griffiths, of Carmarthenshire.

The Clinical Medals of Dr. Fellowes, for observations on Medical Cases in the Hospital for the Winter Term, at the recommendation of the Examiners, in consideration of the very high order of merit of all the papers sent in, were awarded as follows:—to Mr. J. Talfourd Jones, of Brecon, the Gold Medal; to Mr. Frederick Thomas Roberts, of Carmarthen, an extra Gold Medal; and to Mr. Richard Dawson, of Brighton, the Silver Medal.

The Prize offered by the Council for the best English Essay on an Historical, Biographical, or Speculative Subject, was awarded to the Rev. George C. Geldart, B.A. Cantab., of London. The subject proposed by the Senate was "The Expediency or Inexpediency of Encouraging the Cultivation of the Vernacular Celtic Languages still existing in Great Britain and Ireland." Professor Masson was the Examiner. A similar Prize has been offered for the current Session; the subject "Climate—its Effects on Nations."

The Reading-Room Society's Prize of £5, for the best Latin Prose Essay, was awarded to Mr. Augustus Samuel Wilkins, of Brixton. The subject proposed by the Senate was "The successive incipient Efforts at the Invasion of Persia by the Greeks before Alexander the the Great." Professor Newman was the Examiner. A similar Prize has been offered for the current Session; the subject "What were the Causes which Favoured the Transition at Rome from a Republican to an Imperial Constitution?"

JUNIOR SCHOOL.

The condition of the Junior School has been, as usual, the subject of inquiry and report to the Council by a Committee of their body, who, after reading and considering a General Report by the Head Master and separate Reports by Professor Malden and the Assistant Masters, and holding conferences with the Head Master, stated to the Council that the information furnished as to the general working and condition of the School during the Session 1861–62 was of a gratifying character; that the accounts of the discipline of the School continued to be favourable; that the conduct of the Pupils, with a few exceptions inevitable among so numerous a total, had been steadily good; and that there appeared reason to be satisfied with the attention and diligence of the Pupils in their Classes, and with the evidence of fair progress in the different studies: that a suggestion made by the Head Master respecting the establishment of a separate system of training for little Boys under Ten Years of age had been reserved for further consideration by the Committee at a future meeting, when they should have received sufficient information to enable them to form an opinion. Arrangements are in progress for affording increased facilities for instructing Pupils of the School in Natural Philosophy.

The former Pupils of the School who in the College Examinations obtained Prizes and Certificates of Honour were :—Mr. George Campbell De Morgan, Andrews Scholarship of £85 in Mathematics and Natural Philosophy (1862); Mr. Benjamin Kisch (1861), Mr. Philip Magnus (1862), Second or Extraordinary Andrews Scholarships (£60) in Mathematics and Natural Philosophy; Mr. Magnus also gained the second Certificate in the Class of Hebrew, and the first Prize in the Higher Senior Class of Mathematics; Mr. Numa E. Hartog, the Jews' Commemoration Scholarship of £15, tenable for two years, the third Certificate in the Junior Mathematical Class of Natural Philosophy and Astronomy, the first Prize in the Junior Class of Latin, the second Prize in the Junior Class of Greek, the Prize in the Class of Hebrew, the third Certificate in the Lower Senior Class of Mathematics; Mr. Edward Henry Busk, the second Certificate in the Class of Ancient History, the third Certificate in the Class of English History, the first Prize in the Senior Mathematical Class of Natural Philosophy and Astronomy, the sixth Certificate in the Senior Class of Latin, the third Certificate in the Senior Class of English, the third Certificate in the Senior Class of French, the third Certificate in the Higher Senior Class of Mathematics; Mr. Edward Brodie Cooper, the second Prize in the Junior Mathematical Class of Natural Philosophy and Astronomy, the Prize in the Class of Philosophy of Mind and Logic; Mr. Alfred H. Garrod, the third Prize in the Experimental Class of Natural Philosophy and Astronomy; Mr. Joseph Estlin Carpenter, the fifth Certificate in the Senior Class of Latin, the first Prize in the Senior Class of Greek, the Prize in the Lower Senior Class of Mathematics; Mr. George William Brown, the eighth Certificate in the Senior Class of Greek, the first Prize in the Higher Junior Class of Mathematics; Mr. Arundel Tagg, the eighth Certificate in the Senior Class of Greek (equal with Mr. Brown), the second Prize in the Junior Class of English, the Prize in the Senior Class of French, the fifth Certificate in the Higher Junior Class of Mathematics, the fourth Certificate in the Class of Geology; Mr. Isaac Nunes Carvalho, the first Prize in the Junior Class of Greek, the second Prize in the Class of Geology; Mr. Temple Augustus Orme, the first Prize in the Junior Class of English; Mr. George Walter Knox, the first Prize in the Class of Mineralogy and Palæontology; Mr. John Hawthorn Kitson, the Prize in the Class of Civil Engineering. Certificates of Honour were awarded to other former Pupils of the School, as follows :—to Mr. George S. Joseph, the second Certificate in the Class of Ancient History, the second Certificate in the Class of English History, the third Certificate in the Senior Mathematical Class of Natural Philosophy and Astronomy, the fourth Certificate in the Senior Class of English, the fourth Certificate in the Higher Senior Class of Mathematics; to Mr. John Kelsall, the fifth Certificate in the Class of Ancient History; to Mr. Henry Godefroi, the fourth Certificate in the Class of English History; to Mr. Edward Wagg, the fourth Certificate in the Junior Mathematical Class of Natural Philosophy and Astronomy, and the second Certificate in the Class of Civil Engineering; to Mr. Lindsey M. Aspland, the fifth Certificate in the Senior Class of Latin, the tenth Certificate in the Senior Class of Greek; to Mr. Arthur Lucas, the fifth Certificate in the Junior Class of English, the fifth Certificate in the Higher Junior Class of Mathematics; to Mr. Thomas C. Murphy, the sixth Certificate in the Junior Class of English; to Mr. William E. Mozley, the seventh Certificate in the Senior Class of Latin, the seventh Certificate in the Senior Class of Greek, the second Certificate in the Junior Class of French; to Mr. David Ainsworth, the eighth Certificate in the Senior Class of Latin;

to Mr. John Sterling Ainsworth, the eighth Certificate in the Senior Class of Latin (equal with Mr. David Ainsworth), the sixth Certificate in the Senior Class of Greek, and the sixth Certificate in the Lower Senior Class of Mathematics; to Mr. Robert W. Munn, the third Certificate in the Junior Class of French, the third Certificate in the Junior Class of German, the seventh Certificate in the Higher Junior Class of Mathematics; to Mr. Henry A. Braham, the fourth Certificate in the Junior Class of French; to Mr. Alexander L. Samuel, the fourth Certificate in the Junior Class of French (equal with Mr. Braham), and the second Certificate in the Junior Class of German; to Mr. George Schwabe, the fourth Certificate in the Lower Senior Class of Mathematics; to Mr. Thomas Guy Paget, the third Certificate in the Higher Junior Class of Mathematics; to Mr. Arthur C. Ranyard, the sixth Certificate in the Higher Senior Class of Mathematics, and the fifth Certificate in the Class of Geology; to Mr. Thomas H. Lewis, the fourth Certificate in the Class of Philosophy of Mind and Logic; and to Mr. Alfred Cotterell Tupp, the third Certificate in the Class of Political Economy.

DEGREES.

The Degrees of the University of London taken by Students of the College in the year 1862, were as follows:—M.D. 2, of a total of 6 from 4 Medical Schools; A.M. 3, of a total of 8, of whom 1 proceeded from Private Tuition, the remainder (7) from 5 Institutions; LL.B. 3 (2 in the first division), of a total of 12, of whom 1 proceeded from private tuition, the remainder (11) from 7 Institutions; M.B. 6 (4 in the first division), of a total of 18 from 8 Medical Schools; A.B. 15 (8 in the first division), of a total of 55, of whom 18 proceeded from private tuition, the remainder (37) from 17 Institutions; B.Sc. 6 (4 in the first division), of a total of 13, 2 of whom proceeded from private tuition, the remainder (11) from 6 Institutions:—in all 35 Degrees taken by Students of this College, of a total of 112 taken by Students from 29 Institutions. Two hundred and ninety-seven passed the Matriculation Examination (81 in January and 216 in July); of these 63 proceeded from private tuition; of the remaining 234 from 117 Institutions, 19, including 5 from the Junior School (all in the first division), were from University College; of the 14 who proceeded from the Faculty of Arts of the College, 8 were in the first division and 5 in the second division.

The Honours obtained by Students of this College at the University Examinations were as follows:—At the Examination for the Degree of A.M.:—Mr. John Wotton Teevan, now of Trinity Hall, Cambridge, was placed first for his Examination in Classics; Mr. William Stanley Jevons took the first place and the Gold Medal for his Examination in Logic and Moral Philosophy, Political Philosophy, History of Philosophy, and Political Economy. At the Examination for the Degree of LL.B.:—Mr. Henry Mason Bompas, of London, was placed second at the Examination in the Principles of Legislation, equal with a Student of another College, second at the Examination in Conveyancing, second at the Examination in the Law of the Courts of Equity, third at the Examination in Common Law, and first at the Examination in Roman Law. At the Examination for the Degree of M.B.:—Mr. Thomas Starkey Smith, of Warrington, obtained the University Scholarship of £50 per annum for two years and the Gold Medal for his Examination in Medicine, and the Scholarship of a like amount and the Gold Medal for his Examination in Surgery; Mr. Smith also took Honours in Midwifery; Mr. Alexander J. Balmano

Squire, of London, obtained the second place and the Gold Medal for his Examination in Physiology and Comparative Anatomy; Mr. Squire also took Honours in Medicine and in Midwifery. At the Examination for the Degree of A.B.:—Mr. George Campbell De Morgan, of London, obtained the second place at the Examination in Mathematics and Natural Philosophy; Mr. Horatio Nelson Grimley, lately of this College and afterwards of St. Peter's College, Cambridge, was placed third; Mr. James Edwin Odgers, of Bath, obtained the University Scholarship of £50 per annum for three years, for his Examination in Classics; Mr. Ernest Charles Benecke, of London, was placed second at the same Examination; Mr. Lindsey Middleton Aspland, of London, obtained the University Scholarship of £50 per annum for three years, for his Examination in Logic and Moral Philosophy; Mr. Joseph Hammond, LL.B., of Leeds, passed in the first Class at the "Further Examination" in the Hebrew Text of the Old Testament, in the Greek Text of the New Testament, in the Evidences of the Christian Religion, and in Scripture History. For the Degree of B.Sc. at the Honours Examination in Mathematics and Natural Philosophy, Mr. Benjamin Kisch, of London, the only Candidate, obtained Honours; Mr. Frederick Thomas Roberts, of Carmarthen, was placed first at the Examination in Logic and Moral Philosophy; Mr. John Clifford, B.A., of Nottingham, second; Mr. William Hackney, of London, obtained the University Scholarship, £50 per annum for three years, for his Examination in Geology and Palæontology; Mr. Frederick Thomas Roberts was placed third; Mr. John Clifford fourth; Mr. Hackney also took Honours in Chemistry and Biology. Of Undergraduates at the First Examination for the Degree of M.B.:—Mr. Alexander Bruce, of London, obtained the Exhibition of £40 per annum for two years and the Gold Medal, for his Examination in Materia Medica, Pharmaceutical Chemistry, and Organic Chemistry; Mr. Bruce also took the third place in Honours in Physiology, Histology, and Comparative Anatomy. At the First Examination for the Degree of A.B.:—Mr. William Hackney, of London, obtained the second place in Honours for his Examination in Mathematics and Mechanical Philosophy; Mr. Robert Hunter, of London, obtained the Exhibition of £30 per annum for two years, for his Examination in English; Mr. Robert Harvey, of Geneva, obtained the Prize of the value of £5 for his Examination in French; Mr. William Scarnell Lean, of London, took Honours in four subjects, viz. Latin, the third place; in English the fifth place; in French, the third place; and in German, the second place; Mr. Joseph Estlin Carpenter, of London, and Mr. Richard Acland Armstrong, of London, obtained respectively the fifth and sixth places in Honours in Latin; Mr. Henry Godefroi, of London, obtained the third place in Honours in English, and in French equal with Mr. Lean, and the third place in German; Mr. George Solomon Joseph, of London, Mr. Arundel Tagg, of London, and Mr. Thomas Layton Pearson, of York, obtained (equals) the fourth place in French. At the First Examination for the Degree of B.Sc.:—Mr. William Lant Carpenter, B.A., of London, obtained the first place at the Examination in Chemistry and Natural Philosophy; Mr. George Walter Knox, of London, the only Candidate, obtained Honours in Biology. At the Preliminary Scientific Examination for the Degree of M.B.:—Mr. Philip Brooks Mason, of Burton-on-Trent, obtained the Exhibition of £40 for two years, for his Examination in Chemistry and Natural Philosophy; Mr. Frederick Barham Nunnely, of Burton-on-Trent, obtained the second place, Mr. Bryan Holme Allen, of London, the third place at the same Examination; Mr. Mason also obtained the Exhibition of £40 for two years, for his Examination in Biology; Mr.

Edward Francis Willoughby, of Brighton, obtained the third place at the same Examination. At the Matriculation Examination in July, Mr. Numa Edward Hartog, of London (a former pupil of the Junior School), obtained the third place for his Examination in Mathematics and Natural Philosophy, and the second place for his Examination in Classics; Mr. William Coxeter, of Abingdon, a pupil of the Junior School, was placed third at the Examination in Zoology; Mr. Johann Gottfried Kinkel, of London, also a pupil of the Junior School, was placed fifth at the Examination in Classics, and seventh in Mathematics and Natural Philosophy.

NEW CHARTER OF THE UNIVERSITY OF LONDON.

By a new Charter, dated 6th January, xxvi. Victoria (1863), the University of London has obtained enlarged power of granting Degrees. That of conferring the Degree of Master in Surgery is expressly given to it; and it has moreover the Faculty of conferring the several degrees of Bachelor, Master, and Doctor, in any department of knowledge whatever, except Theology.

The New Charter, correcting a former omission*, provides for including in the Corporation all persons on whom the University has conferred or shall confer the Degrees of Doctor of Science, or Bachelor of Science, or any other Degree. It also provides that Convocation, in addition to the Graduates constituting it under former Charters, shall consist of all Bachelors of Science of three years' standing, and also of all Graduates holding such other Degrees to be hereafter conferred by the University as shall be recognised as qualifications for admission to Convocation by resolution of Convocation in manner therein provided. It further gives power to Convocation, if it see fit, to enable absent members to vote by voting-papers on the nomination-list for the selection of Fellows of the Senate.

New Regulations, affecting the Examinations of the University, have been made by the Senate respecting the order of arrangement of successful Candidates for Honours at the Examination for Degrees in Arts, and for the classification of Candidates at the Matriculation Examination. Besides these changes, the separate Examination for Honours in special subjects at Matriculation is to be discontinued; the Candidates are to be arranged in three divisions, viz. the Honours Division, the First Division, and the Second Division; the names of the Candidates in the Honours Division to be placed in order of merit, the names of the Candidates in the First and Second Division to be in alphabetical order. Exhibitions of the value of £30, £20, and £15 for two years are to be conferred on the first, second, and third Candidates in the Honours division, respectively, under the same conditions as at present, three prizes of Money or Books, one of the value of £10 and two of the value of £5 each, are to be conferred upon the fourth, fifth, and sixth Candidates in the Honours Division, respectively, under the same conditions as at present.

The new Regulations respecting the Matriculation Examination are to come into force at the Midsummer Examination in 1864.

The particulars of all these new Regulations are inserted in the College Calendar for the current Session. They will be found, of course, in the Calendar of the University of London, just published.

The ceremony of conferring Degrees stands appointed for the day following the Annual Meeting of Convocation, which is fixed to take place the second Tuesday in May in every year. The day of the ceremony is henceforth to be officially designated as PRESENTATION DAY.

* *Vide* Report 1859, p. 12, note.

ADMISSION TO THE ROYAL MILITARY COLLEGE, SANDHURST.

The Council, at their first Meeting for the Academical Session (in November), took notice of an announcement, which met with general circulation, that the Secretary of State for War, with the concurrence of His Royal Highness the General-Commanding-in-Chief and the Council of Military Education, had approved of Rules by which Candidates who shall have passed certain Examinations at the University of Oxford, Cambridge and Dublin, would be qualified for admission at the Royal Military College at Sandhurst, without further Examination. The Council requested their Treasurer, the Vice-Chanceller of the University, to take steps for obtaining like privileges for the Matriculation Examination of the University of London.

At their Meeting in December, the Council received from the Registrar of the University a copy of a letter from the Under Secretary of War, announcing that Sir G. C. Lewis, the Secretary for War, upon the recommendation of the Council of Military Education, had approved of Candidates who had passed the Matriculation Examination of the University of London being considered as qualified for admission as Cadets to the Royal Military College at Sandhurst, without further Examination, provided they in other respects comply with the Rules embodied in the Regulations of 1st May, 1862, in regard to age, &c., of Students from the Universities.

EXAMINATIONS FOR APPOINTMENTS IN THE PUBLIC SERVICE.

Early in the present Academical Session, Earl Russell, Secretary of State for Foreign Affairs, addressed a letter to the President of the College, offering to nominate, for the privilege of competition in an Examination for an appointment of Student-Interpreter in China or Siam, a Student of the College recommended by the President; and about the same time Earl Granville, Lord President of the Council, offered a nomination for one or two Students of the College, to compete at an Examination for Clerkships in the Education Department of the Privy Council.

Notwithstanding that all the publicity which time allowed (the notice received having been short) was given to these offers, no application from Students was received; and the Council have not the opportunity of announcing, as they had the satisfaction of doing last year, in the case of Mr. Satow, the success of a College Student in a competition for employment in the Public Service.

Acknowledgments on the part of the College were not the less due to Earl Russell and Earl Granville, and thanks were accordingly returned to them by the Council.

PROFESSORSHIPS.

In the course of the year several important changes took place in the Professorships and other offices connected with the Faculty of Medicine. At the close of the Winter Term, Dr. Walshe resigned the Professorship of the Principles and Practice of Medicine, and with it the offices of Physician to the Hospital and of Professor of Clinical Medicine. Dr. Walshe's retirement from the service of the College was occasioned by the increasing demands on his time by his private practice. It was much regretted by the Council. He has accepted an invitation given to him at the instance of the Senate of the College to assume the title of Emeritus Professor. In proceeding to fill

this vacancy, the Council found it expedient to avail themselves of the power given them by a clause of the Bye-Laws, under special circumstances, to dispense with advertising. An intimation having been received from Dr. Jenner of his intention to become a Candidate, the Senate addressed to the Council a statement that, considering the reputation and eminent position held in his profession by Dr. Jenner as a practical Physician and an original observer in Medical Science, the zeal with which he had discharged his duties as Professor of Pathological Anatomy and of Clinical Medicine for many years in the College, and his very decided success as a teacher, they felt assured that no person of equal qualifications and fitness would offer himself as a Candidate for the Chair of Medicine in answer to an advertisement. The Council concurred in the views of the Senate, and for the reasons stated, embodied in a resolution passed by them, they unanimously determined not to advertise the vacancy; and they appointed Dr. Jenner to the Offices which had become vacant by the retirement of Dr. Walshe.

The appointment of Dr. Jenner occasioned a vacancy in the Special Professorship of Clinical Medicine. That vacancy was advertised, and after careful inquiries into the qualifications of several Candidates, the appointment was conferred on Dr. John Russell Reynolds, Fellow of the College, who had taken Degrees with the highest Honours in the University of London.

Dr. Reynolds already held the Office of Assistant-Physician to the Hospital, was known to have assiduously devoted himself to Clinical pursuits, and to have distinguished himself by many valuable scientific contributions, more especially by his work 'The Diagnosis of Diseases of the Brain' and his 'Treatise on Epilepsy.'

The Professorship of Pathological Anatomy, referred to in the Report of last year as vacant in consequence of the resignation of Dr. Jenner on his first appointment as Physician Extraordinary to Her Majesty, has been filled up by the appointment of Dr. Wilson Fox, who had been formerly a very distinguished Student in both Faculties of the College and in the Hospital.

Since his Studentship, Dr. Fox had made Pathological Anatomy and the closely allied branches of Medical Science the subjects of his especial study under the most eminent teachers in Germany; and a published memoir on the Pathology of Glandular Structures of the Stomach, illustrated by lithographic drawings made by himself, gave evidence of his power of original investigation, of his being an accurate observer, and of his habits of skilful research in minute Anatomy. At the time of his appointment, which was made in April, Dr. Fox was Physician to the North Staffordshire Infirmary, at Newcastle-under-Line, an office which he had held for four years.

The arrangements necessary on his resigning that office, and removing to London, rendered it expedient that he should not be required to enter on the duties of his Professorship in the Summer Term immediately succeeding, which would begin on the 1st of May. His first course of Pathological Anatomy at this College was consequently postponed until the Summer Term of the current Session.

An Assistant-Physicianship at the Hospital had become vacant by the promotion of Dr. Reynolds to the Physicianship and Special Professorship of Clinical Medicine. The vacancy was advertised, and Professor Harley and Professor Fox became Candidates. The difficulty of deciding between these gentleman was overcome by the adoption of a proposal, the expediency of which, although not before made formally a subject of deliberation, had been often discussed among friends and Officers of the Hospital,—namely, to institute an addi-

tional Assistant-Physicianship for the care of the numerous patients who applied for advice on the two days in the week on which no other Physician was in attendance to prescribe for Out-patients. The Medical Committee of the Hospital recommended this proposal on the ground that it would be advantageous to the Out-patients Department of the Hospital; and the Hospital Committee approved it. The Council adopted it, and appointed Dr. Harley and Dr. Wilson Fox Assistant-Physicians. Dr. Harley had been for some years Physician to a Public Dispensary; and since 1855 he has been a successful teacher in Histology and Practical Physiology in the College; three years ago he obtained the appointment of Professor of Medical Jurisprudence in the College, and he has with equal success conducted the studies of that class. Dr. Wilson Fox's qualifications have been already referred to.

Among the duties which Dr. Jenner, on his appointment at Court, found it incumbent on him to relinquish, were those of Physician to the Department of Skin Diseases at the Hospital. When provision for the care of that Department became the subject of deliberation, it appeared on inquiry that its establishment had been advantageous to the Students, who had largely availed themselves of the instruction given by Dr. Jenner. It was deemed expedient therefore to continue it as a separate Department, and to appoint a special Officer for the care of it with such a modification that the Officer so appointed might in future be either a Physician or Surgeon, and that his title should be Medical Officer of the Skin Department. Among the candidates for the appointment was Dr. Hillier, who had distinguished himself highly during his Studentship in both Faculties of the College, and in the Examinations for Degrees at the University of London. He had been formerly Resident Medical Officer of the University College Hospital, and four years and a half Assistant-Physician at the Hospital for Sick Children. Dr. Hillier, moreover, had lately published an Essay on Ringworm, which exhibited in a favourable manner his exercise of the critical faculty in regard to that class of maladies, and gave evidence of his ability for independent observation and research. The Council appointed Dr. Hillier Medical Officer to the Skin Department at the Hospital.

Early in the present Session Dr. Garrod resigned the Offices of Professor of Materia Medica, Physician to the Hospital, and Professor of Clinical Medicine. These Vacancies were advertised, and applications were received either for both or one or other of the Offices from eleven Candidates.

Among these Dr. Hare, who for many years past had discharged with great assiduity, kindness, and skill the duties, first, of Assistant-Physician at the Hospital, and afterwards Physician with the care of Out-Patients, applied for the vacant Physicianship and the Professorship of Clinical Medicine. The Council conferred on him the two appointments. For the Professorship of Materia Medica they chose Mr. Sydney Ringer, who had been a distinguished Student in the College, and who, after filling Offices in other Institutions, had been for some time Resident Medical Officer of the College Hospital. Mr. Ringer is known for remarkable zeal and energy in the pursuit of science, and for the exercise of these qualities in discharge of the duties of the Office which he holds in the Hospital. He is the author of papers on Ague, on Diabetes Mellitus, and on Scarlet Fever, which have obtained places in the Medical and Chirurgical Society's Transactions, and also of a curious and practically useful paper of great Medical and Scientific value, published in the Proceedings of the Royal Society for 1860, suggested by the practice of Auscultation at the Consumption Hospital, "On the Alteration in the Pitch of Sounds passing through solid Media."

VACANCY IN THE PROFESSORSHIP OF LATIN.

In the Faculty of Arts no change requiring notice occurred during the Session 1861–62. But at their Meetings in December last, the Council received notice of the desire of Mr. Newman, for private and domestic reasons, to retire from the Professorship of Latin at the end of the current Session. The Council accepted Professor Newman's tender of resignation with regret at the prospect of the loss of his services, and of the severance of the connexion which had so long subsisted between him and the College. For the appointment of a Successor to the Chair, when it shall become vacant, the usual measures are in progress.

DONATIONS.

A valuable donation of Books was received by the College in the month of July last, from Miss Harriett Isabella Mill, the sister and executrix of the late James Bentham Mill, Esq. The Library of Mr. Mill was not expressly disposed of by his will, but he had made known his wishes respecting it to his sister, who, in accordance with his desire, presented it to the College. It consists of 607 volumes of select and valuable works of Science and Miscellaneous Literature, English and Foreign, Ancient and Modern. The Council thankfully accepted the Gift, and were much gratified by such a proof of attachment to the College on the part of one of its earliest Students, the son of a highly distinguished Member of its first Council. The name of Mr. James Bentham Mill stands second* on the College Register of Students of the year of its first opening, 1828. His father was Mr. James Mill, well known as Secretary to the Hon. East India Company, as author of the History of British India and of the Analysis of the Phenomena of the Human Mind. In commemoration of the Gift, the name James Bentham Mill, like those of former Donors of large collections, has been inscribed over a recess of the College Library.

A present useful both for the College and Hospital has been recently made through Professor Williamson by Mrs. Ramsay, the widow of Mr. Peter Ramsay, Surgeon of the Royal Navy, lately deceased at Liverpool. This Gift consists of seven cases of Surgical Instruments, which had belonged to Mr. Ramsay; the Instruments are in good preservation, and will be a useful addition to the Collections of the College and Hospital. The Council have retained a small portion for the use of the Class of Practical Surgery in the College; the rest have been given into the care of the Resident Medical Officer of the Hospital as an addition to the Instruments kept there for the use of the Surgeons of the Hospital.

The Botanical Museum of the College has received an accession by the Gift from Mr. William Steere, a former Student, of a general collection of dried ferns in good preservation, and likely to prove useful for the Lectures of the Professor of Botany.

The Lists in the Appendix will notice the numerous other donations received in the course of the year for the Library and Museums.

FLAXMAN'S DRAWINGS.

An addition of great interest to Artists and lovers of Art has been lately made to the Collection, possessed by the College, of the works of Flaxman. The renown of that great Artist, especially the estimation in which he is held abroad, depends, as is well known, even more on

* The names first and third are respectively Charles Z. Macaulay, now Secretary to the Audit Office, brother of the late Lord Macaulay; and Frederick D. Goldsmid, who is at present a Member of the Council of the College.

the works of his pencil than on those of his chisel; yet the Gallery of the College contained no specimen of his talent in Drawing. An opportunity of making the acquisition of works of that nature presented itself when a series of Drawings, which had been left by him to the late Miss Denman, were to be disposed of after her death; and consequently, in order to illustrate more fully the genius of the Sculptor, and to perfect the Flaxman Collection in the College, it was determined to attempt to raise a fund for the purchase of a selection to be made by Mr. Foley, R.A. The Graphic Society, which for several years has held its Meetings in the College, originated a movement towards that object by passing a resolution expressive of their views on the subject, and subscribing the sum of 25 guineas. The late Prince Consort and several Members of the Council with other Members of the College, among whom was the late Marquis of Lansdowne, and also the Royal Academy, were amongst the earliest promoters of the scheme. An anonymous approver of the project offered to add £20 to every £100 of subscriptions from other persons. A Fund amounting, with £272 16*s.* 10*d.* given by the anonymous contributor, to £634, was raised. The sum of £375 16*s.* was expended in the purchase of Drawings which Mr. Foley, previously to the sale, had marked as most eligible for the object in view; about £60 was spent in printing and advertising and miscellaneous expenses; and the remainder has been employed in preparing the drawings for exhibition to the public, by mounting them and fixing them in a Screen contrived for the purpose in the room in which the Shield of Achilles is placed. The New Collection consists of about four hundred works—Drawings, Sketches, Studies, Scraps, —of Sacred, Moral, Domestic, Classical, Academical, and Monumental Subjects, of great diversity of execution, from very slight delineations of first thought, to elaborate drawings, all more or less characteristic of the genius of Flaxman, and displaying in their grace and tenderness, nature and truth, in their spirit, life, and action, the prolific and happy faculty of ideal conception, and the marvellous power of drawing and expression, with which he was endowed.

The Council, while congratulating the College on this interesting addition to its treasures, and recording the obligation which it is under to the Subscribers to the Fund, cannot omit to express their thanks to Mr. Foley. The College is greatly indebted to him not only for the sacrifice of much valuable time, and the exercise of great professional judgment and taste, in the selection of the drawings, but also for the artistic arrangement of the works acquired, to which he devoted several long evenings, and of the screen in which they are exhibited. No doubt he found his chief reward in the pleasure of the pursuit, in the gratification of rendering a service to the noble Art which he practises himself with such zeal and success, and in doing honour to his great predecessor, of whose works he is at once an ardent and discriminating admirer; but the gratitude of the College is not the less due to him because he has a higher recompense.

FINANCES.

The financial transactions for the Session 1861–62, distinct from the distribution among Professors and other Teachers of the portion of Fees of Students and Pupils assigned to them, may be stated summarily as follows:—The College portion of Receipts from Students of the College and Pupils of the School was £2661 8*s.* 11*d.*; the Dividends and Interest on funds unappropriated to special purposes, rent of lockers, and Fees on transfer of Shares, amounted to £1203 6*s.* 2*d.*, making an Income for general purposes of £3864 15*s.* 1*d.* The Expenditure, exclusive of payments provided for by endowment funds, was £4604 0*s.* 9*d.*,

including £301 1*s.* 8*d.* paid for Printing and Medals beyond the expenses incurred on those accounts for one year. That sum being deducted, there remains an Expenditure on account of the year of £4302 19*s.* 1*d.*, against a receipt of £3864 15*s.* 1*d.*, or an adverse balance of £438 4*s.* As, however, the financial year 1861–62 was one of eleven months only, in consequence of the amendment of the Bye-Laws, which directs that the finanical year shall close on the 31st of August instead of on the 30th of September as heretofore, a sum of about £150 should be allowed as the expenses of a twelfth month—a month of vacation—and the excess of expenditure over receipts should be estimated at £588 4*s.* In this statement the expenses incurred for new Furniture and Property added to the Libraries and Museums are treated as ordinary expenses. The Council regret that the circumstances of the current Session present no better prospect. It is only left for them to hope that the present condition of the Finances is one of those fluctuations which have been heretofore experienced and recovered from.

A retrospect for the period from 1853 to 1862 will justify the conclusion that during those nine years the average receipts of the College had proved adequate to the expenditure for ordinary purposes, and that the encroachments on Capital which had taken place were caused by expenditure chiefly in completing the existing Building and other important additions, not of ordinary character, to the property of the College. In the years 1856 and 1857 the receipts were more than sufficient to cover the expenses, ordinary and extraordinary, incurred on account of those years.

The actual condition of the Finances has rendered it incumbent on the Council to dispose of a portion of the East India Stock belonging to the College. The sum of £784 0*s.* 9*d.* was consequently sold at the commencement of the present year, and produced £1784 2*s.* 6*d.*

THE HOSPITAL.

The account which the Council have to give of the Hospital, although in some respects gratifying, is in others very far from satisfactory. They have lately received from the Hospital Committee a special Report, in which advice and assistance are sought in the present unfavourable condition of the finances of the Institution. That Report states that during the last four years the average annual expenditure has been about £6400, and that during the same period the average receipts have been about £5800; that consequently there has been an average annual deficit of £600, or in all £2400; that the amount of debts at the commencement of the period raised the liabilities to £4000, exclusive of a mortgage-debt of £3000.

The gratifying circumstances attending the condition of the Hospital are the skilful treatment and careful nursing which the Patients receive, the general efficiency of the management of the Institution, and the ready aid which the Committee have lately received towards the accomplishment of their desire to introduce improvements. By means of a special fund raised in response to a distinct appeal for specific objects, many improvements have been made in the interior of the Building. The wards and their fittings, the passages and staircases, have been newly painted in a more cheerful and home-like style than before. They have been otherwise put in order; and baths, in greater number than heretofore; new lavatories; and improved lockers for patients' books, crockery, and clothes; and other additional comforts of various kinds for the patients have been provided.

The Nursing Department, on the due arrangement and administration of which the successful treatment of the sick must of necessity so

greatly depend, has been ever the subject of care and anxiety to the Committee, but with a consiousness of their want of success in putting it altogether on a satisfactory footing. In the hope of improving it they accepted, in October 1860, as an experiment and for a limited time, an overture made to them on behalf of the Lady Superior of the All-Saints Home to undertake the charge of nursing in two of the Wards by the Sisters of that Establishment. The experiment succeeded: the investigations of the Committee, and the accounts which their inquiries elicited from the Physicians and Surgeons and the Resident Medical Officer, have convinced them that the nursing by the Sisters is much superior to the nursing under the old system; and they have entered into an arrangement for entrusting the nursing throughout the Hospital to the Ladies of the Home, still as an experiment, for a year from 1st of June last. The experience of the few months that have since elapsed has been satisfactory, and the Committee have no doubt that the change has been generally beneficial, and especially conducive to the comfort of the patients. In negociating for this change, great pains were taken to provide that there should be no interference with the religious opinions of patients or other inmates; and before deciding on the arrangement, satisfactory assurances were given to the Committee, and communicated by them to the Council, that the objects of the Ladies in undertaking the charge were simply those of exercising themselves in works of charity, and gaining experience in the art of nursing the sick, that they would constantly respect the principle of administering the benefits of the Institution to all without distinction; and the Council have good reason to feel satisfied that these assurances have been faithfully observed.

These efforts to improve the character and real efficiency of the Charity must be admitted to constitute strong claims for adequate support, and for a much larger assistance from annual subscriptions than it at present enjoys.

The amount of subscriptions, indeed, is represented to the Council as the weak point in the financial position of the Hospital. These have rarely reached £1000 a year, or from one-sixth to one-seventh of the outlay. All efforts that the Committee have made by advertisement, by circulars, and by visits to Residents have met with but partial success; and they are at a loss how to act upon the public to obtain an increase of certain income and a wider circle of subscribers. The support which the Institution has hitherto received has been mainly derived from the contributions of its original Founders on occasion of appeals, which, as the Committee states, although generously responded to, do not produce a sum sufficient for its wants, while they press heavily on those who periodically renew their gifts. The Committee express their confidence that, if the actual condition and circumstances of the Hospital could be more widely known and duly considered, the public would not neglect its claims so much as they do, but would give it a support sufficient to maintain, if not to extend, its usefulness.

A Public Dinner, at which the Duke of Argyll presided, and which produced the sum of £2111, was held in April last. For the particulars of the proceedings on that occasion, the excellent advice which his Grace proffered in his speech at the Dinner, and which the Hospital Committee caused to be widely circulated, as also for the names of the principal contributors on that occasion and subsequently in the course of the year 1861–62, both for the general purposes of the Hospital and in response to the special appeal above mentioned (the amount of the latter being £974 3*s.*), the Council beg leave to refer the Members of the College to the Reports and other papers issued by the Hospital Committee.

The Council again recommend the Hospital to the Members of the College, and intreat them to avail themselves of every opportunity of making its merits known and of exerting themselves for its behoof; bearing in mind that its claims to their interest, over and above its charitable purpose, rests on its being an essential adjunct to the Medical School which has brought so much credit on the College; and that it would be difficult to over-estimate its importance.

The Residuary Estate of the Late Edward Lombe, Esq., subject to the Life Interest of his Widow and to Legacy Duty on her decease, was, soon after the last General Meeting, transferred to the College, under an arrangement by which the Council, at the instance of Mr. Lombe's widow and her present husband, the Signor Giusti, had consented to the change of investment, with a view to Madame Giusti's benefit, from New 3 per Cents. to Bank Stock; and the Signor and Signora Giusti on their part have consented to the investment being made in the name of the College, to be held in trust for Madame Giusti for her life, and after her decease for the Hospital, in pursuance of Mr. Lombe's Will. The change of investment thus effected was from £28,203 18*s.* 7*d.* New 3 per Cents. to £10,750 Bank Stock. A Deed of Declaration of Trust was executed in duplicate by the respective parties, and one part deposited among the College Muniments.

WORKING MEN'S MEMORIAL OF GRATITUDE TO SIR ROBERT PEEL.

Four Institutions received contributions from the income of this Fund in 1862. They were the Boston Working Men's College, the Cardiff Museum and Free Library, the Northampton Mechanics' Institution, and the Lewes Mechanics' Institution.

Books, Maps, &c., costing £15, were furnished to each of them. The cost of advertising, and other expenses of the Trust, amounted to £3 0*s.* 6*d.* The balance in hand of dividends at this day is £56 3*s.* The Council have advertised their intention to make distributions, of the value of £15 each, to three Institutions.

CHAS. C. ATKINSON,
Secretary.
